Attention:

Gentlemen:

25X1A

In response to your telephone request of 19 September 1963, please find enclosed a set of clarifications of the technical proposal for the Development of

25X1A

(Proposal Number 1220-2452). This proposal was in response to the solicitation dated 6 September 1963 and Technical Exhibit TMP-33902.

Also requested on 19 September 1963 was a quote for an option to the proposal. This addition allows circuitry to be developed and added to the previously proposed hardware. It will provide for power programming of the false target pulses to simulate the reduced power received at target edges.

25X1A

In consideration for the work to be performed on this option, proposes a selling price of including a fixed fee of A cost summary is enclosed. This is in addition to the original selling price of which included a fixed fee of
